

Screening

My company offers advanced screening services for professional investors. The screening facilities are not available on-line, but are proprietary off-line studies. Prices, dependent on specifications, the availability of the dataset required and the reporting format, come from 1.000 USD to 10.000 USD ex VAT.

In the Winter 2019 Edition on Intelligent Cloning you will find an example. It was actually a study for cheap Buffett-type stocks in Turkey. But this can be done for any other country as well.
